## SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

### Control Parameters

No data available.

### Exposure Controls

#### Personnal protective equipment

There is no exposure limit for the ingredients.

#### Personal Protective Equipment

##### Eye/Face Protection

Face shield and safety glasses Use eye protection equipment tested and approved in accordance with standards such as NIOSH (US) or EN 166 (EU).

##### Skin Protection

Wear gloves when handling. Gloves should be checked before use. Use the correct glove removal method (without touching the outer surface of the glove) to avoid skin contact with this product. Contaminated gloves should be disposed of in accordance with good laboratory practice and compliance. Wash your hands with plenty of water and dry them.

##### Protection of the Respiratory System

If it is determined that the use of air-purified respirators will be appropriate in the risk assessment, use particulate holder respirators that completely cover the face for technical controls. If the only way for protection is a respirator, use full-face air masks. Use respirators and equipment tested and approved according to relevant official standards such as NIOSH (United States) or CEN (European Union).

##### Environmental Exposure Control

If there is no safety hazard, prevent further leakage or spillage. Be careful not to mix into the sewer. Discharge into the environment should be avoided.
